PERSONAL PROJECTS

Project Tracking App

- Created Canvas app using PowerApps for tracking the project status.
- Created for 3 role based (Manager, Team Lead, Team Member) users, user can access different screens and perform actions based on membership of SharePoint groups.

Color Game

- This project is based on JavaScript with Html and CSS. This is a single user game which has two levels one is easy mode and the other is hard(default) mode.

Rock Paper Scissors game

- This is HTML, JavaScript and CSS based project in which we can play rock paper scissors game with the system.

Portfolio

- This is my E-resume. Can be seen using <https://github.com/rn-ranjeet/portfolio>
